

3-day training in

Therapeutic Storywriting Groups

What is Therapeutic Storywriting?

Therapeutic Storywriting uses the metaphor in stories to support children whose emotional and behavioural difficulties are getting in the way of their learning.

Research shows that the 10-week intervention improves pupils' writing skills while also developing their emotional and social skills. Therapeutic Storywriting is a DCSF example of good inclusive practice (SEN IMPACT: Case Study (14) and is in use in over 35 LAs in the UK.
